IN RAILWAY CIRCLES.

the U. P. at Kansas City. _

MR. H. W. ADAMS GOES TO DENVER'

The Rio Grande Western and the Utah Central Form a Grand Scenic Circle-Personal and General.

The friends of J. V. Parker, late assistant general freight and passenger agent of the mountain division of the Union Pacific, with headquarters in this city, will be pleased to learn that he is, again in the employ of the Union Pacific, having been made assistant general freight agent, with headquarters in Kausas city, and that he will assume the duties of his new position on July 1. The best wishes of the gentle-man's friends in this section will go with him in his new field of labor.

H. W. Adams Goes to Denver.

It was also given out in railway circles yesterday that H. W. Adams, now stationed at Butte, had been appointed general freight agent of the Union Pacific, with headquarters in Denver, and that he, also, would take hold of his new position on the 1st of July. Mr. Adams was at one time chief clerk to Mr. Parker in this city, and when he was relieved from that position he was given a responsible position in Butte. Mr. Adams is well spicken of by those who are best acquaited with him, and they predict a successful career for him in Denver.

thence to Aita by wagen or horse; thence to Granite by tramway, asd thence to Salt Lake by the Rio Grande Western, or the trip can be reversed if desired. Nothing like it is known for beauty in the mountains. The traveler will at all times be within thirty miles of Salt Lake, but traveling among the pines and snows of the castern peaks, he will need to take his blankets along if he thinks of stopping out over night.

Mr. Baugroff's Suggester.

Mr. Bancroft's Successor.

Concerning Mr. Welby, who succeeds Mr. Bancroft rs superintendent of the Rio Grande Western, the Denver News says: "Mr. Welloy is the recipient of hearty con-"Air. Welloy is the recipient of hearty con-gratulations from his numerous friends. White he has cleared several rungs of the ladder of railroad famo at one jump, the promotion was nevertheless deserved. Mr. Welloy is one of the rising young railroad men of the west, and possesses marked ability. General Manager Dodge, of the Western, has certainly been fortunate in securing his services. Mr. Welloy has been with General Manager Smith for a number of years, and this fact alone is a guarantee that he has received a practical railroad edthat he has received a practical raliroad ed-neation. He will be succeeded by H. M. Pike, who has been secretary to Mr. Smith !!

Personal and General.

Travel is quite heavy.

Wool rates remain undisturbed. It is said the Southern Pacific has its eye on Ed Dickinson.

The Utah Central are now running regular freight trains to the Park. Harry Culmer's delineation of the Cure-canti Needle now adorns the Union ticket

spent in Ogden. Another gang of men went north yester-

day to work on the broad-gauge Utan & Northern near Brigham.

Mr. Parker Enters the Employ of the L. P. at Kaneac City.

The Scandinavians go to Garfield Beach to-day, and the descendents of "Scots Wha Ha'e," ctc., will rustleate at American Fork. There promises to be a big attendance at both resorts.

Paul J. Wells, once of this city, but who has born located in Orden for several menths past, will succeed M. C. Merris as train dispatcher of the Utah division of the Union Pacine. Mr. Wells place in Orden will be filled by George B. Chiff.

The rallroad surveyors are now at work at Cedar, but they have seen ordered by Engineer Moore to return to June in about two weeks, to begin the preliminary survey from there through Milford and Beaver counties as ordered by the citizens of these places. This is the U. N. & C. line, and it comes that have have not forcetter in these places. This is the U. N. & C. man and it seems they have not forgotten us-

Union,

In the month of May there were forwarded from the National stock yards, St. Louis, over the eastern lines, 1,857 car loads of liva stock, against 1,275 in the corresponding mouth of 1889. Of this stock, 788 cars, 42 per cent were shipped over the St. Louis-Rivision of the Big Four; 495 cars over the Chicago & Alten; 371 over the Wabash, and 27 cars over the Ohio & Mississiph.

Safe, Sure and Speedy.

No external remedy ever yet devised has so fully and unquestionably met these three prime conditions as successfully as Alleccic's Porous Plasters. They are safe because they contain no deleterious drugs, and are manufactured upon scientific principles of medicine. They are sure, because nothing goes into them except ingredients whim are exactly admited to the purposes.

Rustling Dick Neslen, who has been in the local office of the Burlington some years past, has severed his connection with that road and "gone into partnership with Jay Gould," as one of his friends expressed it. In other words, he has entered the Missouri Pacific office in this city, ari will hold the position of contracting agent under Mr. S. V. Derrah. Dick commenced his new duties yesterday.

The most important railroad move made lately is the combination just arranged be tween the Utah Central and the Rio Grande Western for a grand "tourist route" which encircles the most be autiful particular of our mountain scenery. A pas-enger can start from Sait Lake and go to the Park by rail. Then by wagon or horse; thence to Atta by wagon or horse; thence to Granite by trailway, asd thence to Sait Lake by the Rio Grande Western, or the

Superintendent Palmer, of the western division of the Karassa Pacific line of the Marghap with five continuous proposed and the control of the Custom Pacific, is beoked for a nice promotion, being no other than the general superior intendency of that road. In fact it is said that Mr. Palmer has aready received notice of his appointment to that position from Vice-President Holomba and he will est position from Vice-President Holomba and he will enter the same and the custody of the mirror intendency of that road. In fact it is said that Mr. Palmer has a ready received notice of his appointment to that position from Vice-President Holomba and he will est position from Vice-President Holomba and he will account the accounted as a size of the position from Vice-President Holomba and he will be possition for white possition for the vice-size and the custody of the mirror intendency o away his crutches, and can walk now as straight and upright as he ever did; and tion of the systems of the Missouri Pacific and Atchison. Topeka & Santa Fe entire.

The proposed combination is alieged to be the outgrowth of the recent disastrous rate wars of the west. The local railroad magnates attribute the proposed scheme to the strong rival combinations which were formed against the Missouri Pacific during the rate war. It is asserted that this fact has strengthened Gould's desire to withdraw from the western railway field, provided he can do so without any great sacrifice of property rights. The magnate has devoted time and money to building up his pet, the Pacific system, but now realizes his inshibity to cope with the combination of systems against his interests.

As explained by Omaha railroad men, who chaim to be thoroughly informed on the subject, it is prepased that Gould shall purchase the Chicago & Alton system. This proposition is to be covered with a collateral trust mortgage in order that the Pacific system he is to lease the entire interest, to the Atchison people. It is asserted at present that the only thing necessary to the consumation of the scheme is the amount of percentage to be guaranteed on the Pacific stock. If this combination is effected railroad men assert that the Atchison will control practically a wonderful amount of percentage to be guaranteed on the Pacific stock. If this combination is effected railroad men assert that the Atchison will control practically a wonderful amount of percentage to be guaranteed on the Pacific stock. If this combination is effected railroad men assert that the Atchison will control practically a wonderful amount of percentage to be guaranteed on the Pacific stock. If this combination is effected railroad men assert that the Atchison will control practically a wonderful amount of percentage to be guaranteed on the Pacific stock.
